EDUCATION

Indian Institute of Information Technology, Kota

Bachelor of Technology in Engineering; CGPA: 8.02

Tagore Science Residential School

Class 12th; Percentage: 89.60%

Sharda Bal Niketan School

Class 10th; Percentage: 82.33%

Kota, Rajasthan

2021 – 2025

Nagaur, Rajasthan

2018 – 2019

Nagaur, Rajasthan

2016 – 2017

PROFESSIONAL EXPERIENCE

Cograd

Full Stack developer Intern

Kota , Rajasthan

April 2024 – June 2024

- Developed and maintained a comprehensive Job Portal
- designed to connect job seekers and employers effectively.

PROJECTS

StudyNotion - An Online Education Platform

React, Node.js, Express.js, MongoDB

- Designed and developed a fully functional website that enables users to create, consume, and rate educational content. The platform is built using the MERN stack (ReactJS, NodeJS, MongoDB, ExpressJS). StudyNotion provides a seamless and interactive learning experience for students, making education more accessible and engaging. System architecture: The high-level overview of the platform's components and diagrams of the architecture. Front-end: The description of the front-end architecture, user interface design, features, and functionalities of the front-end, and frameworks, libraries, and tools used. Back-end: The description of the back-end architecture, features and functionalities of the back-end, frameworks, libraries, tools used, and data models and database schema. API Design: The description of the API design, list of API endpoints, their functionalities, and sample API requests and responses.

Shopping Cart - E-commerce Web App

HTML, CSS, JavaScript, React

- Designed and developed a fully functional website that allows users to browse, filter, and search for products across categories. Users can register, log in, and manage their cart, adding multiple items, adjusting quantities, and proceeding to checkout.

Tic-Tac-Toe - Interactive Game

HTML, CSS, JavaScript

- Created a tic-tac-toe game for two players. One player uses X and the other O, and they take turns placing their marks on a 3x3 grid. The first player to get three in a row (horizontally, vertically, or diagonally) wins the game, otherwise, it results in a tie and a new game starts.

Razorpay Clone - Payment Gateway UI

Tailwind CSS

- Developed a website mimicking the design of the popular Indian payment gateway, Razorpay. The project focuses on recreating the user interface for educational and practice purposes.

TECHNICAL SKILLS

- **Programming Languages:** C, C++
- **Web Development:** HTML, CSS, JAVASCRIPT, REACT, TAILWIND, MONGODB, NODE.JS, EXPRESS.JS, TYPESCRIPT
- **Coursework:** Computer Network, Operating System, DBMS, Object Oriented Programming System
- **Database:** SQL

AWARDS AND ACHIEVEMENTS

- **Web Development Bootcamp-Code Help:** Completed an intensive web development bootcamp focusing on modern web technologies
- **MySQL Database Design Course:** This course provides a comprehensive introduction to database design using MySQL, one of the most popular relational database management systems
- **Endeavour 1.0-Coding ninja** Participated and excelled in a national coding competition organized by Coding Ninja, 2022.
